Outcome Budget 2021-2022

February, 2021

MINISTRY OF FINANCE

OUTPUT OUTCOME FRAMEWORK 2021-22

(MAJOR CENTRAL SECTOR & CENTRALLY SPONSORED SCHEMES)

Preface

Major Expenditure Reforms have been undertaken by the Government over the last few years. This not only includes simplification of appraisal and approval processes, but also structural changes in the process of budget making itself, like doing away with Plan / Non-plan distinction. As a result, the cost-centres are being treated in an integrated manner, within only the statutory revenue capital framework. This enables another major structural reform, which is to bring the public schemes and projects under a monitorable Output-Outcome framework.

Since 2017-18, in addition to the financial outlays of schemes of the Ministries being indicated in the Budget document, the expected outputs and outcomes of the schemes are also being presented in a consolidated Outcome Budget document, along with the Budget. These Outlays, Outputs and Outcomes are being presented to the Parliament in measurable terms, bringing-in greater accountability for the agencies involved in the execution of government schemes and projects. Outlay is the amount that is provided for a given scheme or project in the Budget; while Output refers to the direct and measurable product of program activities, often expressed in physical terms or units. Outcomes are the collective results or qualitative improvements brought about in the delivery of these services.

The Outcome Budget presents (a) the financial outlay for the year 2021-22 along with (b) clearly defined outputs and outcomes (c) measurable output and outcome indicators and (d) specific output and outcome targets for FY 2021-22. This will significantly enhance transparency, predictability and ease of understanding of the Government's development agenda.

Through this exercise, the Government aims to nurture an open, accountable, pro-active and purposeful style of governance by transitioning from mere outlays to result-oriented outputs and outcomes. This effort will enable Ministries to keep track of the scheme objectives and work towards the development goals set by them. The document being presented here is an extract out of the Outcome Budget 2021-22 and contains Output-Outcome Framework for major Central Sector (CS) Schemes and Centrally Sponsored Schemes (CSS) with outlay Rs. 500 crore and greater in FY 2021-22. Hence, this document covers 139 CS/CSS schemes.

Acknowledgements

The Output-Outcome Monitoring Framework is a result of co-operation, teamwork and collaboration of a wide range of stakeholders across Ministries and Departments.

It would not have been possible to deliver the exhaustive framework without the relentless help and support of the Division heads in-charge of various CS and CSS schemes and nodal officers of all the Ministries and Departments, under the leadership of their Secretaries.

The framework has benefitted extensively from the assistance provided by the subject matter verticals and the team at Development Monitoring and Evaluation Office (DMEO) under the leadership of Dr. Rajiv Kumar, Vice Chairman, NITI Aayog and Shri Amitabh Kant, CEO, NITI Aayog.

Furthermore, I would like to thank all the officials of the Budget Division in the Department of Economic Affairs for their unflinching support towards creating this framework.

In addition, I extend my gratitude to all my team members of the Department of Expenditure with a special mention to the Financial Advisors of the Ministries and Departments, who reposed their belief in this document.

The Output-Outcome Monitoring Framework has gained immensely from the insights and inputs of the Finance Secretary, Dr. Ajay Bhushan Prasad Pandey.

And lastly, I would extend my special thanks to the Hon'ble Finance Minister, Smt. Nirmala Sitharaman and Hon'ble Minister of State (Finance), Shri Anurag Singh Thakur, for their guidance in enabling us to take this important step forward towards achieving the goal of transparent and accountable expenditure management.

Shri T.V.Somanathan

		1.2. Area insured under crop insurance	5% increase		2.1 Average turn-around-time in days for payment of claims from date of harvest ²	30
	2. Efficient claims assessment through technology and claim settlement mechanism	2.1. Number of Crop Cutting Experiments (CCE) captured through smartphones (CCE Agri App)	5% increase			
		2.2. Number of smart sampling points utilized for conducting CCEs on CCE Agri App	5% increase			
		2.3. Percentage of approved claims paid to farmers by insurance companies for the ongoing seasons ³	95			
	3. Capacity building	3.1. Number of trainings/workshops held	5% increase			

¹ As PMFBY is implemented by State Governments, some States may implement the Scheme in one year and not in the other year. Hence, only those States that have implemented PMFBY in both 2020-21 and 2021-22 have been considered for comparison here

² Majority of claims i.e. >90% of reported claims from date of harvest i.e. 30th November for Kharif and 30th April for Rabi seasons

³ Approved claims are such claims which are ready for payment to farmers and are generally pending due to operational reasons such as payment failures, pending clarifications from State Governments, etc.

¹³² Figure estimated on the data for the period from 01.04.2020 to 20.12.2020.

¹³³ % increase in production in terms of volume is limited to the units availing subsidy benefits under the scheme, who have reported the data, as reporting of the same is optional in the guidelines.

¹³⁴ Provision to Capture data on production is not there in the applications for the subsidy claim. Hence, the estimated target is as per the turnover under different segments.

¹³⁵ Target for this field cannot be determined since UIDs are being auto generated w.e.f. 26.07.2019 based on the applications submitted by the units.

¹³⁶ Issuing of UIDs is not under the control of Scheme Administration/Implementing Agency as they are demand driven and generated automatically once a unit fulfilling the eligibility criteria registers in i-TUFS software and gets the term loan sanctioned from lending agency. Therefore, it is not possible to pre-determine the targets for this field.

¹³⁷ Figure estimated based on new employment generated for the period from 01.04.2020 to 20.12.2020

		1.2 Seed Production (Lakhs	4423.75		1.2 Yield per 100 disease free	70

¹³⁸ In respect of Output indicator no. 1.9, it is to state that the Scheme was expected to boost employment generation in the textile sector, where Government would provide additional 10% Capital Investment Subsidy (CIS) for garmenting units which have availed 15% CIS benefit under ATUFS based on the achievement of projected production and employment after a period of 3 years. The period of 3 years will be counted from the date of release of ATUFS subsidy to that unit. The scheme was in effect from 13.01.2016 to 31.03.2019.

¹³⁹ Meagre amount of subsidy has been released under Garment Segment which in turn made the units eligible for "SPELSGU". Hence no fund released under "SPELSGU" and as such the projection for next year has been kept as "NIL"
