STATEMENT OF OBJECTS AND REASONS

India is committed to create a clean environment and pollution free air as mandated in the Constitution of India. The committee appointed under the Environment (Protection) Act, 1986 has taken measures to deal with the menace of air pollution, particularly in the National Capital Region. By orders passed from time to time, the courts have also set up *ad hoc* committees to aid and assist the monitoring and implementation of its orders and generally to take steps to deal with air pollution. Even then, quality of air in the air shed of the National Capital Region and in the adjoining areas remains a major cause of concern.

2. There is a need to evolve and implement a consolidated approach for monitoring, tackling and eliminating the causes for air pollution and identifying, specifying and rigorously enforcing measures for elimination and mitigation of air pollution, including but not limited to, controlling or eliminating the activities of stubble burning, vehicular pollution, industrial emissions, road dust, biomass burning and urban construction. It is now considered necessary to have a statutory authority with appropriate powers, and charged with the duty of taking comprehensive measures to tackle air pollution on a war footing, with power to coordinate with concerned States and the Central Government and issue directions to statutory authorities established under various laws.

3. The commitments and obligations to environmental conservation and protection within the ambit of the targeted goals on environmental sustainability under the Sustainable Development Goals, particularly towards the issue of air pollution, is manifested in the Air (Prevention and Control of Pollution) Act, 1981, which was enacted under article 253 of the Constitution and more recently in the National Clean Air Programme. It is noticed that there is lack of a permanent, dedicated and participative mechanism adopting a collaborative and participatory approach involving relevant Central Ministries, State Governments, local bodies and other stakeholders to tackle air pollution, in the National Capital Region and Adjoining Areas.

4. It is observed that sources of air pollution particularly in the National Capital Region consist of a variety of factors which are beyond the local limits of the National Capital Region. Special focus is required on all sources of air pollution which are associated with different economic sectors, including power, agriculture, transport, industry, residential and construction. Since air pollution is not a localised phenomenon, the effect is felt in areas even far away from the source, thus creating the need for regional-level initiatives through inter-State and inter-city coordination in addition to multi-sectorial synchronization.

5. Due to the absence of an inter-sectorial, public participative, multi-State dynamic body, the Hon'ble Supreme Court had to devote its precious time in constituting various *ad hoc* or permanent committees at various stages to oversee the problem of air pollution in the National Capital Region and suggest mitigation measures and has been monitoring, supervising and guiding the problem of air pollution in the National Capital Region through the continuing mandamus in the case of M.C. Mehta vs. Union of India and Others, W.P. (C) No.13029/1985. Though in compliance of the directions of the Hon'ble Supreme Court, the Central Government had constituted the Environment Pollution (Prevention and Control) Authority for the National Capital Region with effect from 29th January, 1998 *vide* notification number S.O.93(E), dated 29th January, 1998, the powers and functions of said Authority were limited to section 5 of the Environment Protection Act, 1986 and to the State of Delhi without any collaboration with other nearby States thereby limiting its efficacy.

6. Noting the lack of inter-State co-operation, the Hon'ble Supreme Court had, on multiple occasions, directed the presence of Chief Secretaries of the four States in question, namely, Punjab, Haryana, Delhi and Uttar Pradesh to ensure inter-State co-operation. Due to lack of an oversight mechanism over the joint functioning of the States on issues concerning air pollution, and specifically stubble burning, the Hon'ble Supreme Court in Aditya Dubey (minor) and Another vs. Union of India and Others, W.P(C) No. 1135/2020, had further appointed a one-man Monitoring Committee to monitor the measures taken by

the States to prevent stubble burning. The Hon'ble Supreme Court has, on numerous occasions sought to improve and propose innovative measures and research initiatives to resolve the problem of air pollution.

7. In order to provide a permanent solution and establish a self-regulated, democratically monitored mechanism for tackling air pollution in National Capital Region and adjoining areas, rather than limited and *ad hoc* measures, it was deemed necessary to take up immediate legislative measures to set up a Commission for Air Quality Management in National Capital Region and Adjoining Areas, which would replace the above-mentioned Committees in order to streamline the public participation, the inter-State co-operation, the expert involvement and persistent research and innovation.

8. As Parliament was not in session and there was an immediate need for legislation in this regard, the Commission for Air Quality Management in National Capital Region and Adjoining Areas Ordinance, 2020 (Ord.13 of 2020) was promulgated by the President of India on the 28th October, 2020, but a Bill to replace the said Ordinance could not be introduced in Parliament, consequently, the Ordinance got lapsed on the 12th March, 2021. Thereafter, the Commission for Air Quality Management in National Capital Region and Adjoining Areas Ordinance, 2021 (Ord. 4 of 2021) was promulgated by the President of India on the 13th April, 2021 under clause (1) of article 123 of the Constitution.

9. The Commission for Air Quality Management in National Capital Region and Adjoining Areas Bill, 2021, which seeks to replace the Commission for Air Quality Management in National Capital Region and Adjoining Areas Ordinance, 2021 (Ord. 4 of 2021), provides for—

(a) the constitution of the Commission for Air Quality Management in National Capital Region and Adjoining Areas;

(b) three Sub-Committees to assist the Commission, *viz.*, Sub-Committee on Monitoring and Identification; Sub-Committee on Safeguarding and Enforcement; and Sub-Committee on Research and Development;

(c) the powers and functions of the Commission;

(d) the penalty for contravention of provisions of Act, rules, order or direction;

(e) the imposition of Environmental Compensation by the Commission for causing air pollution by stubble burning.

10. The Bill seeks to replace the aforesaid Ordinance.

STATEMENT OF OBJECTS AND REASONS

The General Insurance Business (Nationalisation) Act, 1972 (the Act) was enacted with a view to provide for the acquisition and transfer of shares of Indian insurance companies and undertakings of other existing insurers in order to serve better the need of the economy by securing the development of general insurance business in the best interests of the community and to ensure that the operation of the economic system does not result in the concentration of wealth to the common detriment, for the regulation and control of such business and for matters connected therewith or incidental thereto.
