## Instructions to Form 61

The requirement field for each data element indicates whether the element is validation or optional in the schema.

Validation	“Validation” elements MUST be present for ALL data records in a file and an automated validation check will be undertaken. The Sender should do a technical check of the data file content using XML tools to make sure all “Validation” elements are present and if they are not, the sender should correct the file. The Income-tax Department will also do so and if incorrect, will reject the file.
(Optional) Mandatory	(Optional) Mandatory data element is not required for schema validation but is required for reporting depending on availability of information or other factors. These elements may be present in most (but not all) circumstances, so the validation will be based rule based.
Optional	An optional element specified in form. May be reported if available.
