

Anti-ship version of BrahMos supersonic cruise missile successfully test-fired

By TIOL News Service

NEW DELHI, DEC 02, 2020: INDIA

successfully test-fired the anti-ship version of the BrahMos supersonic cruise missile from a warship in Andaman and Nicobar Islands on Tuesday, concluding live firing of the weapon.

The fastest cruise missile in its class, BrahMos performed highly complex manoeuvres and hit bull's eye of the target at the 290-km range, the Ministry of Defence said.

Jointly developed by Russia and India as Brahmos Aerospace, the missile itself is a major force multiplier in modern-day complex battlefields with its impeccable anti-ship and land-attack capabilities with multi-role and multi-platform abilities and has been deployed in all the three wings of the Indian Armed Forces.
