P - Provisional figures is based on 4th Advance Estimates of production for 2017-18, Net Import for April 2017 to March 2018 and stock position as on 01.04.2018.

\* The net availability of foodgrains is estimated to be Gross Production (-) seed, feed & wastage, (-) exports (+) imports, (+/-) change in stocks. The net availability of foodgrains divided by the population estimates for a particular year indicate per capita availability of foodgrains in terms of kg/year. Net availability, thus worked out is further divided by the number of days in a year i.e., 365 days which is taken as net availability of foodgrains in terms of grams/day.

# Figures in respect of per capita net availability given above are not strictly representative of actual level of consumption in the country especially as they do not take in to account any change in stocks in possession of traders, producers and consumers.

a : Net availability =Net production +Net Imports - changes in Government stocks.

b : Includes quantities released under the Food for Work Programme during the year 1978 to 1990.

1. Figures for procurement and public distribution relate to calendar years.

2. For calculation of per capita net availability, the figure of net imports from 1981 to 1994 are based on imports and exports on Government of India account only.

Net import from 1995 are, however, based on the total exports and imports (both Government as well as Private accounts).

3. Net Imports are total Imports minus Exports of the Country.

RE: Revised Estimates

BE: Budget Estimates

1. Gross capital formation in this table includes loans given for capital formation on a gross basis. Consequently domestic capital receipts include loan repayments to the Central Government.
2. Consumption expenditure is the expenditure on wages and salaries and commodities and services for current use.
3. Interest payments, subsidies, pension etc. are treated as current transfers.
4. Gross capital formation & total expenditure are exclusive of loans to States'/UTs' against States'/UTs' share in the small savings collection.
5. The figures of total expenditure of the Central Government as per economic and functional classification do not tally with figures given in the Budget documents. In the economic and functional classification, interest transferred to DCUs, loans written off etc, are excluded from the current account. In the capital account, expenditure financed out of Railways, Posts & Telecommunications' own funds etc, are included.
6. Point contribution refers to contribution of individual component to total growth.

Notes:

P: Preliminary, PR : Partially Revised, a: Commercial borrowings include short term credit.

- Grants received are covered under item 4(a).
- Estimated interest accrued and credited to NRI deposits during the year has been treated as notional outflow under invisible payments and added as reinvestment in NRI deposits under banking capital.
- In accordance with the provision of IMF's Balance of Payments Manual (5th Edition), gold purchased from the Government of India by the RBI has been excluded from the BOP statistics. Data for the earlier years has, therefore, been amended by making suitable adjustments in "Other Capital-Receipts and Foreign Exchange Reserves". Similarly, item "SDR Allocation" has been deleted from the table.
- With effect from 1996-97, private transfer receipts include redemption in rupees of both principal and interest under Non-Resident External (Rupee) Account [NRE(RA)] and Non-Resident Non-Repatriable Rupee Deposit [NR(NR)RD] schemes. This marks an improvement in data reporting.
- Totals may not tally due to rounding off.
